**12/1/2010**

**Dear patient:**

***I regret to inform you that January 14th will be my last day of practice with Renaissance Women's Group. As some of you know, my husband lives in Dallas and I have decided to relocate to Dallas to be with him. It has been a privilege taking care of you and I have genuinely enjoyed meeting each and every one of you over the last three years.***

***I am exceptionally pleased to announce that my closest friend, Dr. Jessica Montalvo, will be joining RWG, stepping into my practice and assuming care of my patients. This should be a seamless transition of your care. I am certain that you will love Dr. Montalvo as she and I have been friends for over a decade. She is an excellent physician, a UT graduate, and did her medical training in Dallas. She has been in practice in Bastrop for the last year, and Renaissance is excited that she is joining the RWG team.***

***I wish you all the best.***

***Sincerely,***

***Farnaz Jahangiri, M.D.***
