September 9, 2008

To my dear patients,

*I have something personally very difficult to tell you. Ideally, I wish that I could give each and every one of you this news face to face, but realize that is not possible. Thus, I am writing this letter to inform you that unfortunately I have developed a progressive irreversible medical problem in the bones of my hands which has led me to the very difficult decision to discontinue my practice of Obstetrics and Gynecology. I'm comforted knowing that my physician partners at Renaissance Women's Group, as well as my nurse practitioners, Misty, Cheri and Elena, and the entire RWG staff are committed to providing you with your ongoing women's healthcare.*

*You are welcome to see the physician of your choice, or we will be happy to assist you in making that decision. Biographical information about physicians and providers can be found on our website, [www.rwgdocs.com](http://www.rwgdocs.com). If you choose to see a physician outside of RWG, we will be more than happy to provide that physician with a copy of your records, with your consent.*

*I will miss the profession I have practiced in Austin for nearly two decades, and have been touched by the messages of support and encouragement that so many of you have sent. I've always felt that I'm one of the most fortunate physicians in the world to have had so many incredible women as my patients. Thank you for your trust and confidence throughout the years. It has been an honor to be your physician. I will miss you and will cherish all the memories forever.*

Respectfully,

Linda J. Litzinger, MD
